DETAILED ACTION
RESPONSE TO ELECTION/RESTRICTION

Applicant's election without traverse of group I and election of specie with traverse (example 25, page 42) in the reply filed on 2/9/2009 is acknowledged. The elected specie reads on claims 20-29 and 33-34. Because applicant did not distinctly and specifically point out the supposed errors in the election of species requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 30-32 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

This application contains claims drawn to an invention nonelected without traverse in the reply filed on 2/9/2009. A complete reply to this action must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

An action on the merits of claims 20-29 and 33-34 is contained herein.

Priority

This application receives the priority date of 2/12/2004, drawn to provisional application 60/544627.

Claim Objections

Claim 33 is objected to because of the following informalities: The word "and" appears at the end of claim 33 inside the table. This word should be removed from the table. Appropriate correction is required.

Claim Rejections - 35 USC § 112 (2nd Paragraph)

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 27-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 27 recite the limitation "wherein R₁ is selected from:" in reference to formula (Ia). There is insufficient antecedent basis for this limitation in the claim. Claims 28 and 29 are indefinite since they depend on claim 27.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1624

Claims 20-26 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated over Beight *et al.* (WO 00/39117).

Beight *et al.* teach the following compound:

wherein $R_1 = \text{Cl}$, $R_{2,3} = \text{H}$, $R_4 = \text{amino}$, and $X = \text{N}$ (see page 45, line 1) that read on the aforementioned claims and are therefore anticipated.

Conclusion

No claims are allowed.

Reasons for Allowance

Claim 33 appears free of the prior art. The compounds of the claim are drawn to the pyrazine compounds embracing 1 and/or 2 substituents at positions $R_{2,3}$ that are not taught or fairly suggested by the prior art, the closest prior art is seen to be by Beight *et al.* (WO 00/39117).
